💡 2-g,

💡 3-d,

💡 4-e,

💡 5-c,

💡 6-a,

💡 7-b,

💡 8-h.

Карточка №2. Guess the bird

- 💡 It is a flightless aquatic bird. It has no wings but flippers to help to swim in water. They have black and white colour with short body. They have more feathers than most other birds, averaging approximately 70 feathers per square inch. They generally found in Southern Hemisphere, where they can catch their food from water. They are carnivorous. They eat seafood like fish, squid and shrimp. They do not have teeth.
- 💡 They drink sea water. They are social birds and found in groups. They can live 15-20 years depending on species. They spend three fourth of his life in water.
- 💡 Penguin nesting areas are called “rookeries” and may contain thousands of pairs of birds.
- 💡 They are the fastest swimming birds.

Penguin

Карточка №3. Guess the bird

💡 It is one of the most beloved birds of the Russian people. The singing of it is very beautiful. But they also learn to sing for this, in the third year of their life they become singers. Despite its popularity, it is painted modestly. It is brownish brown. They live in light forests , gardens, parks. It feeds caterpillars, ants, centipedes, spiders, ground beetles, flies, snails and otherterrestrial insects, including pests.

Nightingale
